# WORKBOOK

1. I'm a student, how do I find my online classroom?
2. I'm logged into my classroom; how do I download Zoom on my iPhone or iPad?
3. I'm logged into my classroom; how do I download Zoom on my Android device
4. I'm logged into my classroom; how do I download Zoom on my Android device

## I'm a student, how do I find my online classroom?

In order to login online into your classroom, you must use only Google Chrome browser

1. Open the Chrome browser
2. In the Address bar of the browser, type or copy/paste the url:  
<https://sixnationseducation.ca/>
3. Hit enter and you will see the six nations school website
4. Click on the drop-down arrow for "Schools" and select your school and grade

5. Enter your password and click submit
6. Success! You are successfully logged in and can see your class page!

I'm logged in, how do I connect to Zoom on my desktop?

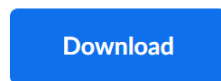

1. Click on here to download Zoom and a new Zoom download page will pop open

2. Click on the blue Download button and download Zoom Client for Meetings

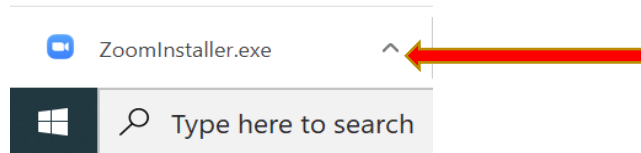

### Zoom Client for Meetings

The web browser client will download automatically when you start or join your first Zoom meeting, and is also available for manual download here.

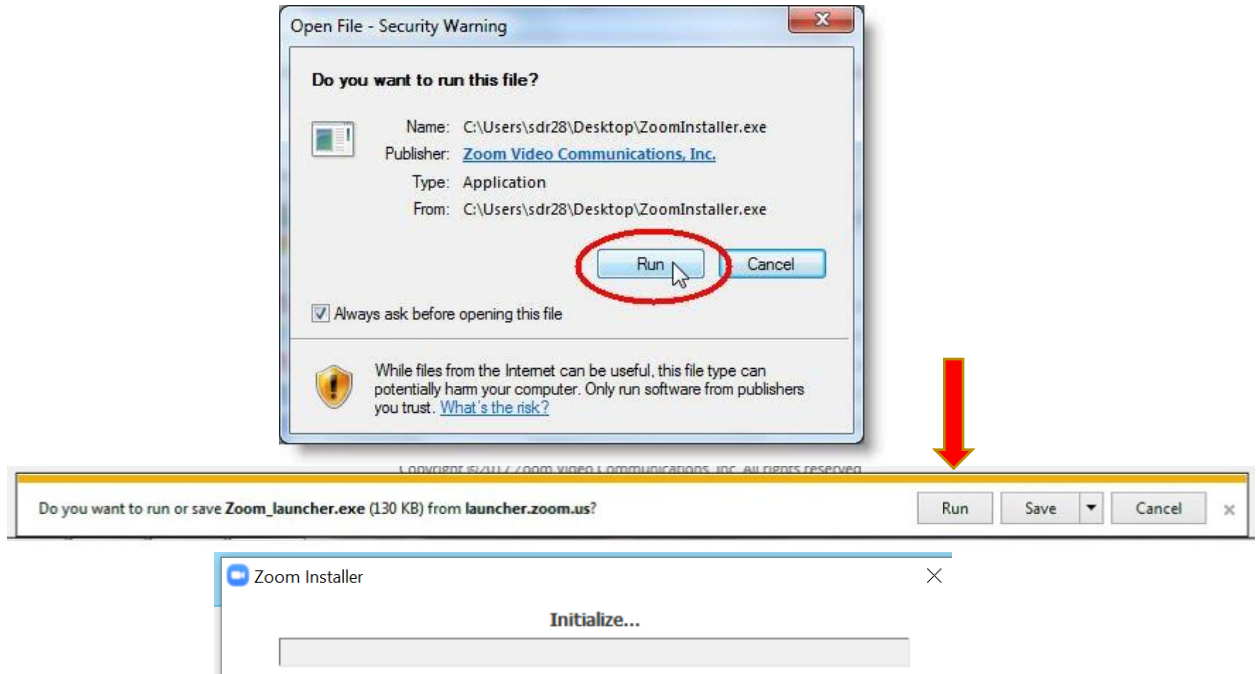

Version 5.2.1 (44052.0816)

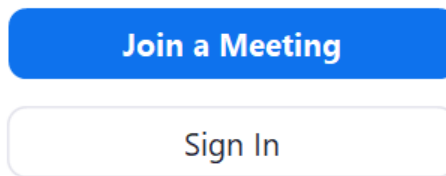

3. Zoom will download at the bottom of your computer screen in the left corner

4. Click on the little arrow pointing up and click Open
5. You may get a security warning; you must click **Run**

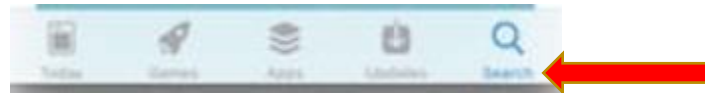

6. Zoom will install and appear on your desktop screen
7. You can click on Join a meeting, or you can Sign In

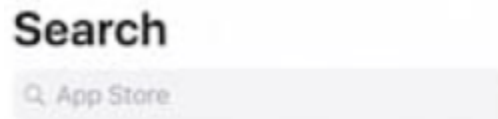

8. If you select Sign In, you can sign in with your registered Zoom email address and password
9. You can also Sign In, with either your Facebook Account or Google Account
10. Success! You are signed into Zoom on your desktop

I'm logged into my classroom; how do I download Zoom on my iPhone or iPad?

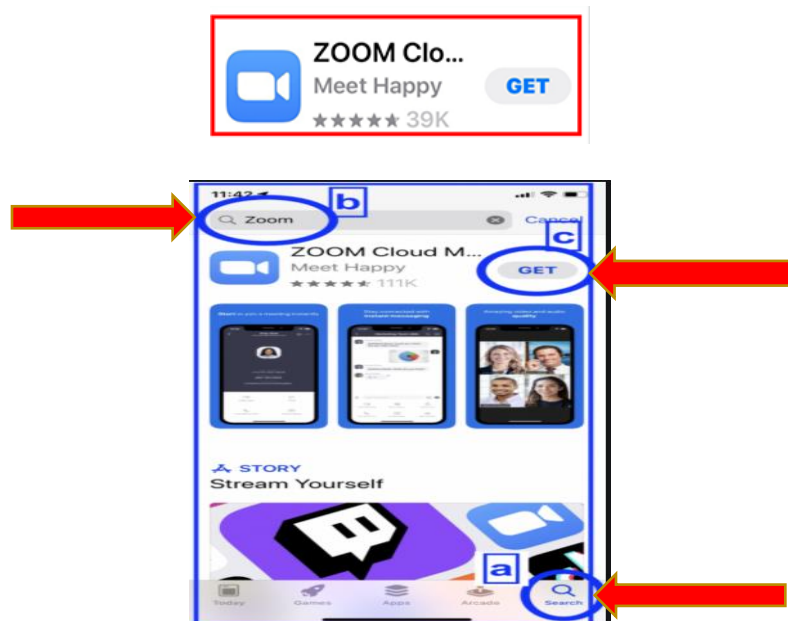

1. On your device, look for the App Store icon and tap it open 
2. In the App Store, tap the magnifying search glass on the bottom right of the screen

3. Type in Zoom in the search bar at the top of the screen

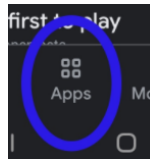

4. Click on "Get" and download Zoom (you must know your personal Apple ID and password to download any app)

5. Zoom will download on your device
6. Tap on Zoom and pop it open. You can Join a Meeting or you can Sign In with your registered Zoom email address and password

# I'm logged into my classroom; how do I download Zoom on my Android device

1. On your device, look for the Play Store icon and tap it open
2. In the Play Store app, tap on Apps

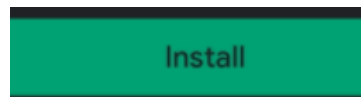

3. In the Play Store screen, tap the magnifying search glass at the top right-hand side of the screen.

4. Type zoom in the search bar area. Tap ZOOM Cloud Meetings from the search results

5. Tap Install and Accept

7. Zoom will download on your device
8. Tap on Zoom and pop it open. You can Join a Meeting or you can Sign In with your registered Zoom email address and password.
